New minimalist tap

Bathrooms International launch the wafer-thin Naos tap.

ABOVE: Naos chrome tap, (H)30x(W)1x(D)18cm, £2,500, Bathrooms International (bathroomsint.com).

New for Spring 2011, Bathrooms International has unveiled the striking Naos single lever mixer tap.

With the spout measuring just 1cm wide, the minimalist design would work perfectly in a contemporary bathroom with simple, bold furnishings, and natural stone flooring.

The polished chrome tap is available in both freestanding and wall mounted designs, making it suitable for both baths and basins.

The Naos tap is available to buy now exclusively through Bathrooms International.
